MOMENI Emissions Update 2022

MOMENI – SBTi Emissions Update

I. Introduction

As part of the Science Based Targets initiative (SBTi), MOMENI Group is committed to reducing direct and indirect emissions (Scope 1+2) by 42% by 2030 compared to the baseline in 2021. In addition, indirect emissions along the supply chains (Scope 3) will be measured and reduced as best as possible. SBTi is a collaboration between CDP, the United Nations Global Compact, the World Resources Institute and the World Wide Fund for Nature. The initiative supports companies to set science-based targets for a path to sustainable growth and emission reduction.

II. Criteria

- Scope 1: Company Cars, Heating Fossil Fuels MOMENI Offices
- Scope 2: Shared Electricity, Electricity MOMENI Offices, Heating MOMENI Offices
- Scope 3: Business Travel, Tenant Electricity, Tenant Heating, Commuting, Embodied Carbon Construction

III. GHG Emissions Overview 2022¹

- Scope 1: 12,72 tCO₂ (+6%)
- Scope 2: 2.235,95 tCO₂ (+8%)
- Scope 3: 30.936,79 tCO₂ (+57%)

¹The emissions data reflect the actual emissions and have not been adjusted by the effect of Covid19

MOMENI – SBTi Emissions Update

IV. Detailed Breakdown

MOMENI SBTi Emissions Update

Category ²	2022	YoY
Scope 1 [tCO₂]	12,7	+6 %
<i>Company Cars [tCO₂]</i>	12,7	+6 %
<i>Heating Fossil Fuels MOMENI Offices [kgCO₂/m²]</i>	0,0	0 %
Scope 2 [tCO₂]	2.235,9	+8 %
<i>Shared Electricity [kgCO₂/m²]</i>	16,7	-2 %
<i>Electricity MOMENI Offices [kgCO₂/m²]</i>	21,8	+9 %
<i>District Heating MOMENI Offices [kgCO₂/m²]</i>	9,3	-30 %
Scope 3 [tCO₂]	30.936,8	+63 %
<i>Business Travel [tCO₂]</i>	113,3	+72 %
<i>Tenant Electricity [kgCO₂/m²]</i>	41,5	-14 %
<i>Tenant Natural Gas [kgCO₂/m²]</i>	3,5	-38 %
<i>Tenant District Heating [kgCO₂/m²]</i>	16,1	-23 %
<i>Commuting [tCO₂]</i>	11,0	+61 %
<i>Embodied Carbon Construction Activities [kgCO₂/m²]</i>	72,9	-48 %

²The emissions data reflect the actual emissions and have not been adjusted by the effect of Covid19
